Swordpoint Compatibility License (SCL) 1.0, February 2021

The **Swordpoint Compatibility License (SCL)** is a royalty-free nonexclusive agreement between Gallant Knight Games and third parties (individuals or organizations) to allow limited use of the Swordpoint™ trademark and use of the SCL Logo visual mark (SCL Logo) to indicate that third party products are compatible with the Swordpoint roleplaying game, published by Gallant Knight Games.

A non-transferable, non-sublicensable, non-exclusive, royalty-free license to use the SCL Logo on products is granted to publishers (hereafter referred to in this document as "You") as long as the requirements below are met:

Requirements

1. No product can include “Swordpoint” in the title.

2. You must not use any of the Swordpoint product line trade dress for your products, or imply that your product is an official Swordpoint product release.

3. The SCL Logo may only be used with materials published under the Open Gaming License (OGL) and you must comply with the terms of the OGL to use the SCL Logo. The SCL Logo is Product Identity, and cannot be used in any way that the OGL prohibits. You still retain all your own rights to your Product Identity under the OGL.

4. The SCL Logo may be placed prominently on exterior covers of print and electronic product covers, as well as on title/credit interior pages. For print or electronic products without covers, it must be placed on the first or last page of the product.

5. The SCL Logo may be placed at any size desired, but must retain the same dimensions as the standard version, and must remain legible. The SCL Logo cannot be colorized or made transparent.

6. Any use of the SCL Logo must include the following text either in a credits/copyright section and/or in the same viewable area as the use of the SCL Logo:

“Swordpoint™ is a trademark of Gallant Knight Games”. If mentioning Gallant Knight Games as a precursor to this then the following text must also be included: “Gallant Knight Games and the Gallant Knight Games logo are trademarks of Gallant Knight Games.”

The text should close with “Used with permission under license.”

7. You agree not to use the SCL Logo in conjunction with illegal activities.

8. You agree to indemnify Gallant Knight Games against any claims made against products produced through your licensed use of the SCL Logo.

9. You agree to allow Gallant Knight Games to use the title of your products and/or contributor names from your products communications regarding usage of the SCL.

10. This license may be updated at any time. You agree to abide by the terms of the updated license, and will be given a window of opportunity to comply with any updated terms.

Grants of Rights

1. You do not need explicit permission from Gallant Knight Games to use the SCL Compatibility Logo.

2. You may indicate compatibility of your product with the Swordpoint™ roleplaying game.

3. The SCL Logo may be used royalty-free on print and electronic products, as well as websites and advertising relating to products that fulfill the terms of this license while in compliance.

4. You may state that your product is “compatible with” any of the following: “Swordpoint” or “the Swordpoint RPG”.

Failure to adhere to the terms of this license may result in termination of the license and the ability to use the SCL Logo on one or more products for individuals or organizations. If this occurs, sale of any affected products must cease immediately, and all advertising and promotional use of the SCL Logo must stop. Destruction of existing and unsold physical inventory may be required. You must immediately suspend sale of all products using the SCL Logo, as well as suspend all advertising and promotional use of the SCL Logo, until your products no longer include the SCL Logo.

The SCL can be revoked or terminated for any reason by Gallant Knight Games. If this occurs, all products using the SCL Logo must remove it from use within 6 months of notice.

Swordpoint: Compatibility License is © Copyright Gallant Knight Games. Gallant Knight Games™ logo and name "Gallant Knight Games™", and "Swordpoint™", and the “Swordpoint Compatible” logo are trademarks of Gallant Knight Games, 2021.

Post-Script

Swordpoint was a zine. I actively encourage those doing Swordpoint compatible material to use zines as their primary form, though it is in no way a requirement of the license (nor will I likely follow it!)

Additionally, sending me a digital copy of any compatible material helps me to promote and showcase it.
